DANIEL AYEKU

FRONTEND DEVELOPER

Lagos, Nigeria | +234 915 294 5170 | ayekudaniel@gmail.com
Portfolio | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Frontend Developer with 2+ years of experience building responsive web applications using React, Next.js, and TypeScript. Experienced in developing user-facing features, integrating REST APIs, and collaborating with cross-functional teams to deliver production applications. Co-founder and Frontend Developer at KampusPlug, contributing to a student marketplace and its internal admin dashboard.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React, Next.js (App Router), Tailwind CSS, React Router, Responsive Web Design

State & Data: TanStack Query (React Query), React Hooks, REST APIs

Backend & Database: Supabase, PostgreSQL, Authentication, Row Level Security (RLS)

Tools: Git, GitHub, Vite, pnpm, Vercel

PROFESSIONAL EXPERIENCE

KampusPlug | Co-Founder & Frontend Developer | Website

December 2025 Present

- Co-founded and helped develop a student marketplace with 79 open shops and 450+ listed products.
- Built responsive product discovery, shopping cart, vendor wallet, withdrawal, and order-related features using Next.js, React, and TypeScript.
- Lead frontend development of the internal admin dashboard, building administrative interfaces and reusable components with React, TypeScript, and Tailwind CSS.
- Integrated REST APIs and TanStack Query to manage server data, loading states, and frontend interactions.
- Collaborate with designers and backend developers to implement product requirements and refine features through testing and feedback.

Netlight Systems Venture | Frontend Development Intern (SIWES)

Ibadan, Nigeria | April 2025 October 2025

- Developed responsive web interfaces and a to-do list application using React, JavaScript, HTML, and CSS.
- Applied component-based development principles to build interactive interfaces and reusable UI elements.
- Worked on WordPress website management, content updates, and SEO-related tasks.

SELECTED PROJECTS

Alumni Connect | Live Demo | GitHub

Next.js, TypeScript, Tailwind CSS, Supabase (PostgreSQL)

- Developed a platform connecting students and alumni through mentorship, job opportunities, and professional networking.
- Implemented authentication, email verification, role-based dashboards, and student and alumni profiles.
- Built mentorship request and application workflows, alongside job posting and application features.
- Integrated Supabase for authentication and database operations, using Row Level Security (RLS) for controlled data access.

SIWES Tracker | Live Demo | GitHub

React, JavaScript, Tailwind CSS, React Router

- Developed a responsive React application to help students organize industrial training logs and monitor progress.
- Built interactive interfaces for recording training activities and viewing progress.
- Implemented training-day tracking to help students monitor remaining days in their industrial training.

EDUCATION

Olusegun Agagu University of Science and Technology (OAUSTECH) | B.Sc. Computer Science, 2026
